Released on: November 20, 2007, 2:54 pm

Press Release Author: Phil Vogel Business Development Manager

Industry: [Aerospace](#)

**Press Release Summary: Test Equipment Connection Corporation today announced the company is now selling new high performance Instek test equipment solutions.**

Press Release Body: *"Instek products deliver a powerful combination of value and performance for T&M users," said Mike Novello, VP of Sales for Test Equipment Connection Corporation. "In listening to our customers, it is nice to see that the demand for Instek test equipment is coming from small entrepreneurial companies and large defense and aerospace companies. In a price vs. performance evaluation, Instek really stands up to the competition."*

**About Test Equipment Connection Corporation:** Test Equipment Connection Corporation and TE Connection Asia Limited are one of the largest vendors of New and Refurbished electronic test and measurement ("T&M") equipment. The companies sell, rent, lease, buy, trade, repair and calibrate over 200 manufacturers with thousands of products available New and

Refurbished. The companies are a single source supplier with in-house calibration laboratories assuring that customers receive only the highest quality T&M equipment and support. **Test Equipment Connection Corporation** has over 200,000 customers, a 45,000 square foot warehouse and repair facility in the US, and over 14 years of profitability and financial strength. The Company web sites are located at [www.testequipmentconnection.com](http://www.testequipmentconnection.com) and [www.teconnectionasia.com](http://www.teconnectionasia.com).

### **About**

Started in 1975, **Instek** designs and manufactures highly accurate test equipment, data acquisition, and control instruments for both device and production/assembly testing. **Instek** manufactures over 150 test equipment products across five key lines – oscilloscopes, spectrum analyzers, function generators, power supplies, and component and safety testers. Industries served include automotive, medical, pharmaceutical, semiconductor, telecommunications, computers and peripherals, consumer electronics, optoelectronics, factory automation, and research and education. Instek delivers high-performance test solutions that address the unique requirements of each client backed by comprehensive after-sales support, warranty and calibration services.
