

Test Equipment Connection Corporation Announces New California Instruments Are Now Available for Sale

Released on: March 24, 2008, 5:47 am

Press Release Author: **Phil Vogel / Business Development Manager**

Industry: [Electronics](#)

Press Release Summary: Test Equipment Connection Corporation today announced the company has entered into a U.S. distribution sales agreement with California Instruments to sell select new California Instruments precision AC and DC power sources.

Press Release Body: *"We have been selling used power sources for 15 years and are proud to let our customers know that we now carry new solutions from the world leader in AC and DC power sources" said **Lexie Moss, Sales and Channels Manager for Test Equipment Connection Corporation.** "California Instruments new product line will help us address the increasing domestic demand we are seeing from customers looking to rent power sources. New **California Instruments** products are easily substitutable and a great solution for customers that may be in the market for an older power source. Plus we offer lease to own programs that can help customers overcome*

budget considerations and obtain the newest power source technology available in the marketplace.”

About Test Equipment Connection Corporation: **Test Equipment Connection Corporation** and **TE Connection Asia Limited** are industry-leading suppliers of New and Refurbished electronic test and measurement (“**T&M**”) equipment. The companies sell, rent, lease, buy, trade, repair and calibrate over 250 manufacturers with thousands of products available New and Refurbished. The companies are a single source supplier with in-house calibration laboratories assuring that customers receive only the highest quality **T&M equipment** and support. **Test Equipment Connection Corporation** has over 200,000 customers, a 45,000 square foot warehouse and repair facility in the US, and 15 years of profitability and financial strength. The Company web sites are located at www.testequipmentconnection.com and www.teconnectionasia.com.

About California Instruments: **California Instruments** has been involved in the design and manufacturing of precision instrumentation products for more than forty years. **California Instruments** products are built and tested in a modern facility located in San Diego, CA. Strict quality control procedures are in place to ensure that all products meet or exceed their published specifications. **California Instruments’** mission is to continue to be the world’s leading supplier of controllable precision AC and DC Power Sources for Test and Measurement applications. In an effort to accomplish this mission, the company and all of its employees are dedicated to a single principle, “**Total Customer Satisfaction.**”
