Press Release Body: Fort Wayne, IN, December 2008 - **Heather Hallman** is proud to broadcast the launch of her new relationship website at <http://gettingexback.net/> which answers any and all of the questions people have about getting back an ex.

*"Thousands of searches are done every day about how to get back an ex girlfriend, boyfriend, husband, or wife," stated **Heather**, "however, there is a ton of bad information out there that just doesn't seem to help much. This has resulted in a lot of confusion about what to do and how to go about getting back an ex, and has even resulted in unsuspecting people losing their exes for good. That's why I felt it was important to help men and women make informed decisions about which 'get back my ex' programs to trust."*

Unfortunately there are many people who are following information that is worse than useless in getting back their exes. Some of this information, if used, can even cause the split to become permanent.

Heather Hallman has been studying what makes relationships work for 15 years and knows that people who are seeking to reconcile need solid advice that works.

"What people who have just experienced a breakup should know is that there are techniques that actually work to repair relationships," explains Heather. "These techniques are often counter-intuitive, so it is easy to be misled by things that sound good, particularly in the information overload of the online world."

The extensive range of topics discussed on Heather's get back your ex website include:

Suggestions on how to get your ex talking to you if they are not communicating with you at all, recommendations on how to get out of a depression, how to avoid becoming an ex stalker, the benefits of following a get back your ex plan, and a full review of Heather's pick for a plan that actually will help you get back your ex.

Heather does all she can to ensure that visitors to her Relationship website leave very well informed about the types of plans that are available to help them answer the question "**How do I get my ex back?**", and to know how to choose a plan that will work.

The product that Heather recommends comes as both a written plan, and a audio book. It has a money back guarantee and has helped 1000's of others in getting back an ex.
