Achieving Network Infrastructure Solution Competency Since 2001

Staten Island, NY (May 19, 2009) - Celerant Technology, a leader in the retail software industry, was recently named a 2009/2010 Microsoft Certified Partner for the Network Infrastructure Solutions Competency. The title of Microsoft Certified Partner is given to companies that demonstrate a proficiency in Microsoft products and deliver a great service to their client base. Celerant has received this title annually since 2001.

"We are very proud to once again receive the title of Microsoft Certified Partner," stated Ian Goldman, Celerant President and CEO. "As a Microsoft Certified Partner, Celerant is able to demonstrate the high level of skill and technical knowledge held by our employees. Everyone at Celerant strives to provide excellent services to our clients and maintain our reputation of being a leader in the retail software industry. The Celerant system deploys with Microsoft SQL Server in many cases, as well as other Microsoft and Windows based applications. These applications are used by our staff and customers, and enable us to more efficiently deliver Celerant products and services."

According to the Microsoft Partner Program, "Partners enrolled in the Network Infrastructure Solutions Competency have proven competency in crafting infrastructure solutions for small to midsize businesses that include Windows Server Solutions based on the Microsoft Windows Server 2003 or Windows 2000 Server operating system, or Microsoft Small Business Server 2000 and Windows Small Business Server 2003." The Partner program also indicates that Celerant has earned the Networking Infrastructure Competency by fulfilling requirements for "Providing and installing complete retail software for stores; providing and implementing complete retail software for stores; and for providing and installing complete retail software for stores and fully integrated e-commerce."

"Only companies that have demonstrated high levels of customer service, proved their experience and attained advanced certification receive the designation of Microsoft Certified Partner," said Allison Watson, Vice President of the Worldwide Partner Sales and Marketing Group at Microsoft.

Celerant Technology has been a Microsoft Certified Partner for the past 9 years. This certification demonstrates the ability for Celerant to provide excellent services and customer support based on advanced technical knowledge that is vital to the retail software industry

About Celerant Technology
Celerant Command Retail is an advanced real-time retail management system, which manages all areas of an organization including POS, Inventory Management, Warehouse, Distribution Center, Allocation, Multi-Channel/E-Commerce/Kiosk, Data Mining, and Back-Office, in a single, integrated system. Our advantage is the flexibility of our Java platform, allowing Celerant professionals to conduct cost-effective analysis and adaptation based on the individual needs of each retailer. The result is a better system that meets the needs of retail businesses and gives them the tools to take Command of their success.
