Industry: [Environment](#)

March 10, 2010 - When workers handle hazardous waste or ship hazardous materials, training is not just a good idea, it's the law. According to the EPA, workers who handle hazardous waste must be trained annually, and the federal DOT requires that workers involved in the shipment of hazardous materials be trained at least every three years.

A graphic titled 'Your Compliance Credentials' featuring a large stylized 'E' logo on the left. To the right of the logo are several diamond-shaped hazard labels: 'CORROSIVE', 'FLAMMABLE LIQUID', 'INHALATION HAZARD', 'RADIOACTIVE I', 'DANGEROUS OXIDIZER', 'EXPLOSIVE', and 'OXIDIZER'. To the right of these labels is a text box with the following text: 'Environmental Resource Center is an environmental, health, safety, and transportation consulting firm. Since 1981, we have served industry, academia, and federal and state government agencies. Our goal is to help you effectively comply with environmental, safety, and health regulations.'

Environmental Resource Center, the leading provider of environmental and safety training, will present the mandatory training in Houston at the Holiday Inn – Intercontinental Airport on March 16 – 18, 2010. Classes begin each day at 8:00am.

Hazardous Waste Management - TX: The Complete Course will be taught on March 16 and 17.

DOT Hazardous Materials Training: The Complete Course will be taught on March 18 at the same location.

Registration for the training is available by calling 800-537-2372 or at <http://www.ercweb.com/classes>.

Now in its 29th year, Environmental Resource Center trains not only thousands of industry personnel every year, the company also trains personnel from most of the state and federal agencies that enforce the regulations.
