Basically teddy is a form fitted under garment without sleeves and risen waistline. It can have a halter or strapless design and has fishnet, sheer or semisheer texture.

Teddies also come in variety of style such as "peek-a-boo" designs, leather and vinyl trimming styles, stretch mesh and sequin appliqué adornments, cup less teddies, teddies with side cut outs, and of course thong teddies. Normally this kind of lingerie has adjustable halter or back straps to ensure a great stay and a perfect fit.

Fatal Woman team been working hard to offer a great quality selection of teddies to make women's "lingerie wardrobe" more creative and

unique. This style is especially popular because of its enticing shape. When you are wearing a <u>teddy</u> your legs look so much longer and skinner even if you do not think about it.
